Randolph School is where Pre-K - 12 students become lifelong thinkers, creative problem solvers, and fearless leaders as they learn to embrace their full potential, prepare for a purposeful future, and create epic possibilities for success.

### **The Three Pillars**

Randolph opens doors to endless possibilities by providing students with the skills and structure for lifelong success, the confidence to experiment without fear of failure, and the unlimited imagination to pursue a broader life vision through academics, arts, and athletics.

**62%**

Students from the class of 2024 matriculating into in-state institutions

**38%**

Students from the class of 2024 matriculating into institutions out-of-state

# College Counseling & Curriculum

## College Counseling Philosophy

The College Counseling Office at Randolph School begins work with students and families as early as Middle School to help prepare their college admissions journey.

Students are counseled on prioritizing fit over everything else. Students are challenged to look for schools that fit their academic, social, and financial needs.

Randolph School believes that the college admissions journey is one that should be approached as a student-led process with the support of their family.

We advise students of their individual obligations in the admissions process regarding disciplinary issues, withdrawing applications, and submitting enrollment deposits.

Randolph School complies with the NACAC Statement of Principles of Good Practice.

In order to ensure objectivity, neither the student nor their parents have the ability to view or see the counselor/teacher recommendations.

## Curriculum Information

[View the Curriculum Guide here](#)

Our curriculum is purposefully developed by expert faculty to ensure students are exposed to a breadth of experiences, while also being provided the support and structure to examine the depth of their interests and passions.

Each student belongs to an Advisory group, a small collection of students in their grade led by a faculty member who will guide their advisees through their entire four-year experience in Upper School.

The advisor becomes the main point of contact for our families, and help their advisees select an appropriately challenging course load, which includes for all students robust offerings in World Languages and Fine Arts, as well as the opportunity to enroll in Advanced Placement offerings across the curriculum.
